

Introduction

The Common Market for Eastern and Southern Africa is a regional grouping of nineteen African States which have agreed to cooperate in the development of their respective economies through regional integration and trade development.

The COMESA Internal Audit unit undertakes continuous auditing of key organizational risk indicators. This initiative aims to identify risk indicators in both administrative and operational areas for timely management of the impact arising from the materialization of organizational risks. In order to increase efficiencies in the continuous analysis of automated data, the Unit plans to acquire and install a data analysis software.

The specifications of the system are attached as Annex B to this document.
